PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building real-world web applications using **Laravel, Vue.js, and Node.js**. Strong backend foundations in RESTful APIs, authentication, and database design, with solid frontend skills for responsive and user-friendly interfaces. Passionate about clean architecture, scalable systems, and continuous learning.

TECHNICAL SKILLS

Languages & Frameworks

PHP (Laravel), JavaScript (React.js, Node.js, Express, Vue.js), HTML, CSS, Blade

Frontend

React.js, Vue.js, Tailwind CSS, Bootstrap, Responsive UI, Reusable Components

Backend & APIs

REST APIs, Authentication, Role-Based Access Control, API Integration, Payment Integration

Databases

MySQL, PostgreSQL, MongoDB, SQL

Tools & Practices

Git, JSON, Debugging, Server Setup

EXPERIENCE

Full-Stack Developer – *Ireme Hospitality (Ireme Technologies)* 2024 - 2025

- Developed a **Hotel & Sales Management System** using **Laravel Blade** to streamline daily business operations.
- Built **product and room management modules**, enabling creation, editing, categorization, and availability tracking.
- Implemented a full **stock management system** supporting stock-in, stock-out, and damaged goods tracking.
- Developed a **sales and checkout system** with automated receipt generation and sales history reporting.
- Implemented **customer and employee management**, including **secure authentication and role-based access control**.
- Created an **administrative dashboard** displaying key metrics and visual reports to support business decision-making.
- Ensured a **clean, responsive, and user-friendly interface**, focusing on operational efficiency and ease of use.

Full-Stack Developer - *Iteme Shop, Ghana* March 2025 - July 2025

- Built a Sales Management System using **Laravel and Vue.js**.
- Implemented backend business logic, authentication, and database design.
- Developed user-friendly dashboards for sales tracking and reporting.

Vue.js Developer - *Byuzuye Pivot, Kigali* August 2025 - September 2025

- Developed a modern business website using **Vue.js**.
- Designed reusable components and dynamic content rendering.
- Focused on responsive design and clean UI structure.

Node.js Developer - *Contact Manager API (Personal Project)* January 2025 - March 2025

- Built a RESTful API using **Node.js and Express**.
- Implemented CRUD operations, authentication, and PostgreSQL integration.
- Designed API endpoints following best practices.

Co-Developer - *FalconDevs, Rwanda* October 2024 - December 2024

- Co-developed a budgeting and expense-tracking application.
- Built APIs and dashboards using **Laravel and Vue.js**.
- Implemented real-time data updates and reporting features.

PROJECTS

Campus Link: Event & Personal Management App (*Laravel*) - Event scheduling, user management, and role-based access.

Ireme Hospitality: Hotel & Sales Management System (*Laravel*) - Room management, reservations, and sales tracking.

Iteme Shop: Sales Management Frontend (*Vue.js*) - Interactive UI for managing sales data and reports.

AllPokets: Personal Finance Manager (*Vue.js*) - Expense tracking and budgeting dashboard.

EDUCATION

Ashesi University, Ghana Bachelor of Computer Science *January 2025 - Present*

Ecole Des Science Byimana, Rwanda High school diploma in

CERTIFICATIONS

- Ireme Certificate of Completion — Web Development
- Forage academy certificate - Data Labeling
- Nova Services Certificate of Completion — Robotics
